

KSC Retail Membership Web System Project

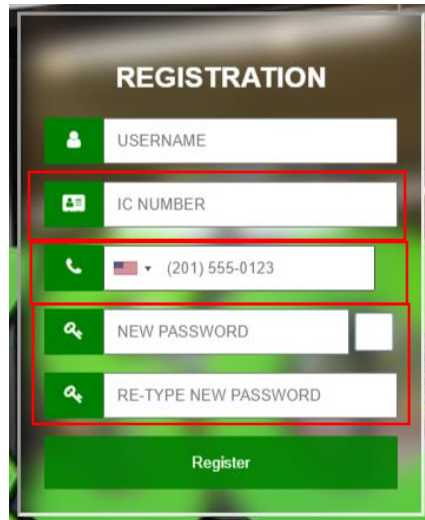

Project Name	KSC Membership System		
Project In-Charge	Mr Willie Yeo (SV) Mr Alvin	Project Manager	Mr Foo Chih Chang
Date of Project Release	1/7/2024	Last Revision Date	30/7/2024
Contribution to Business Strategy	Our strategy is to project that to develop membership system in the store branch, and the current situation the store just offering a discount. The new membership system will ensure all discount are able to be claim by the customer at the end of shopping. It will also ensure that customer got a lot of benefit by joining the membership programme. These two facts align this project to the company strategy.		
Option Considered	Options considered included: 1. Adding additional reception staff in branch counter. 2. Customer support for the customer.		
Benefits	1. Increased sales 2. Happier customer 3. Improved product sales		
Timescales	Initial analysis shows that the system will take approximately 2-3 month to implement.		
Cost	Web Hosting = RM 65 per year Payment Gateway = Commercial Website = RM 65 add on charge		
Expected Return on Investment	Month 1 = 0 Month 2 = RM10 per person		
Risk	Right now the project looks pretty straightforward but there are still some unknowns surrounding implementation. There is also the risk that the project doesn't meet the sales team or customers needs. For this reason it is recommended involve the sales team closely.		

KSC
